'RECENSIONE DI M CANEVARO THE DOCUMENTS IN THE ATTIC SEPTEMBER 26TH, 2018 —
May 21st, 2020 - our knowledge of some of the earliest notions of the subject is derived from the
attic law we have to depend on ex parte statements in the speeches of the attic orators and we are sometimes able to check those statements by the trustworthy but often imperfect aid of inscriptions.

'stichometry'
May 17th, 2020 — stichometry refers to the practice of counting lines in texts. Ancient Greeks and Romans measured the length of their books in lines just as modern books are measured in pages. This practice was rediscovered by German and French scholars in the 19th century. Stichos is the Greek word for a line of prose or poetry, and the suffix metry is derived from the Greek word for measurement.'
